The flowchart illustrates the California Budget Process, starting with the Governor's Budget due to the Legislature by Jan. 10. The process involves the Legislative Budget Subcommittee Hearings, which receive input from the Budget Bill, Finance Letters, May Revision to Legislature, and LAO Analyses of Finance Letters. The Subcommittee Hearings lead to the Legislative Budget Committee Hearings, which then produce the Final Senate Version of Budget and the Final Assembly Version of Budget. These versions are sent to the Budget Conference Committee, which convenes early in June. The Committee produces a Budget Bill, which is then approved by both houses to the Governor by June 15. The Governor's Line Item Vetoes and Signature are due by June 30, and the Budget Act takes effect July 1. The process also includes a Legislature Veto Override Session and the Secretary of State Chapters.
